WillSeal 600  
PolySpecThiokol 2235 M**

**Area: See Below**

**Completed: Spring 2005**

Due to references from engineers, Mobile Enterprises, Inc. was selected by Gunther Nash/CCC Group to be the specialty contractor to perform parts of the Seawall Reconstruction Project, Contract B-2, Phase 2.

During this project, Mobile crews did the following work:

3,596 LF Concrete Sawing 22" deep  
258 CF Dow Froth Pak Foam  
1,550 LF WillSeal 600 1.5" x 3"  
1,550 LF PolySpecThiokol 2235 M  
759 SF Spall Repairs  
1,703 LF Epoxy Injection  
3,125 LF Acrylic Ester Injection  
20,353 LF Rout & Seal Cracks  
48 EA 4" x 18" Cores  
62 EA 2" x 2" Cores

All work was done under stringent specifications and engineering approval.

The General Contractor, Engineer and Owner were all very pleased with the quality of Mobile Enterprises personnel and performance.
